Caring about safety of more than 25 thousand dispatched employees

## Nantong bureau of commerce helps companies which went out in epidemic control in foreign countries

By Yuan Minmin

On 30 March, Nantong Sanjian Group Co., Ltd. gave 100 thousand medical masks, 50 thousand medical gloves, 1000 test kits and 1000 sets of protective clothing which were collected by various ways to Embassy of Serbia in China. A few days ago, Serbia ambassador Milan BACEVIC delivered a letter of thanks which says ‘true friends, go together in crisis’ to general secretary of Nantong Sanjian group charity foundation Li Xinrong himself, to

thank Nantong Sanjian for their help and support.

In the present, there are more than 25000 dispatched Nantong workers who are working and staying in foreign countries. Nantong bureau of commerce pays attention to development of overseas epidemic all the time and supports companies which went out in overseas epidemic prevention and control.

Israel is an important Nantong outsourcing contract market. In the present 8 Nantong companies are doing

outsourcing work, and there are more than 2600 dispatched employees. Since March, confirmed cases have been increasing rapidly in Israel. Nantong bureau of commerce held an outsourcing dispatch work theme online conference, guided companies in epidemic prevention and control. Soon Nantong bureau of commerce will organize transport of epidemic prevention supplies to countries and areas such as Singapore, Japan and Cape Verde, to help Nantong companies in overseas epidemic control.

On 2 April, workers were installing pressure ring sensors of the cable of Hutong Yangtze River bridge Tiansheng harbour channel bridge up in the air, and adjusting the cable according to loading conditions of the bridge cable obtained from the sensors. Cable adjustment work is estimated to be completed by 10 April. Photo by Xu Congjun

### Entrepreneur's talk

#### General Manager of Jiangsu Hua-fon Microfiber Duan Weidong: Rooted in Qidong, focus on the industry

Hua-fon is a private industrial company which works on new material industry development. In 2019, the operation revenue of Hua-fon group was 38.9 billion Yuan. It

is the largest microfiber production base in the world, occupies over 50% of the market.

This year we will do 6 projects and 50 million meter green waterborne microfiber project promotion work. Last month, at new material industrial park in economic development zone in Lvsi harbor of Qidong, Hua-fon degradable new material project whose investment is 10 billion Yuan was signed successfully.

Hua-fon will take Qidong as strategic major point of ‘the fourteenth five year plan’ development, accelerate implementation of industrial projects such as distributed energy, nylon 6, waterborne microfiber and degradable material. 80 thousand ton differentiated nylon 6 project construction was started in the 1st quarter, to start operation as soon as possible.

As one of the ‘new Nantong residents’, Hua-fon group will be rooted in Qidong and focus on the industry, to make Hua-fon Qidong industrial park a domestic leading and globally first class modern industrial park.
