Nantong Aircraft Carrier Park will be open in May 2022

By Zhu Peining

On 10 July, Nantong Yangtze River aircraft carrier international tour resort project held investment agreement signing ceremony. The project is located to the west of north wing of Sutong Changjiang Highway Bridge. The total investment is 16 billion Yuan.

Phase 1 project will be started in next January and the park will be open in Labor Day of 2022. The project is located to the west of north wing of Sutong Changjiang Highway Bridge. It combines ‘eat, drink, play, fun, tour, shopping, and entertainment’, includes aircraft patriotic education

base, Langshan discovery bay, theme park, circus theatre, supporting hotels and retails. It is said that the project was built based on world standard. The planning and design teams are RVJMA who participated in Disney Land and Universal Studios building and CCDI. They are doing preliminary concept plan-

ning. The project will be divided into three phases: phase 1 includes Langshan discovery bay, aircraft carrier patriotic education base; phase 2 includes theme park, supporting hotels, circus theatres and retails; phase 3 is reserved cultural tour project. After phase 1 and 2 are open, the estimated annual passenger flow will reach 7 million.

Nantong Kerry: five times production and sales in five years

Foreign companies in Nantong

By Zhang Shuilan

Since Kerry group settled in Nantong in 2014, it achieved five times production and sales in five years, and realized the strategic target of making Nantong Kerry the manufacture and logistics center of Chinese region. Kerry group was found-

ed in 1972. In the present, the group has three research, development and innovation center in the world, more than 150 plants. More than 18 thousand products are sold in more than 150 countries. ‘Chinese market is an important part of Kerry’s global strategy. Nantong plant

located at Rudong economic development zone became a major hub of its plan in China.’ A few days ago, at Kerry innovation center in Shanghai, vice president and general manager of north Asia Siti Tritium introduced when interviewed, Kerry group invested 4 plants in China one after another, ‘among them, Nantong plant is the one with most investment, the total sum

has exceeded 1 billion Yuan.’ ‘We will make Nantong plant a core operation base in China.’ In 2016, Kerry adjusted global strategic plan, decided to build logistics center in Nantong which not only can satisfy the storage requirements of raw materials of Nantong plant, but also provide important support for products export from places like Europe, America and Malaysia.
