Rugao Chengbei streets Pingyuanchi village Hot spring spurted out successfully

Cross border e-commerce online shopping bonded import work started in Nantong

By Chen Ke

On 31 August, Nantong integrated bonded area cross border e-commerce online shopping bonded import work completed first batch of goods' check. It is a sign that cross border e-commerce online shopping bonded import work was started in Nantong.

Cross border e-commerce online shopping bonded import is the major system cross border e-commerce import work applies. It is also called bonded stock system. Under the system, e-commerce companies can purchase goods from foreign countries, import and stock in special supervised area in Customs based on market

prediction and consumers' needs, then sell retail online, and send to domestic customers according to orders under personal status. There is zero tariff on goods in the list within limit, and 70% of statutory taxable amount of value added tax on imports and consumption duty will be paid. There are obvious advantages in Cus-

toms clearance efficiency, goods quality and cost performance.

In the next stage, Nantong integrated bonded area will promote cross border e-commerce companies attraction, create better e-commerce operation environment and provide more good quality imported goods for consumers in Nantong and east China area.

Three tutors of The Voice of China 'Fight for' Nantong female student

By Xu Peiqin

In the end of August, 2020 voice of China season 2 was on. Nantong contestant Ma Xinyi played and sang an English song *Imagine*, was acknowledged by Li Jian, Li Yuchun and Li Ronghao, and won the audience's applause.

Ma Xinyi is 29 years old, a music teacher of Pingchao Experimental Junior Middle

School. *Imagine* is a classic rock written by English musician John Lennon.

After Ma Xinyi's performance, Li Jian said that two things moved him, one is tone, the other is feeling, 'it is as if an old person who has experienced a lot was telling old stories.' Li Yuchun also thought Ma Xinyi's voice is unique. Li Ronghao said that the most at-

tractive part is her style. When he turned round and saw her playing the piano, he was touched by her facial expression and voice.

Ma Xinyi said that Li Ronghao has always been her favorite singer. Acknowledged by him, she was very glad, and was more steadfast in her music dream. Finally she chose to join Li Ronghao's team.

At 9:18 on 2 September, when drillers turned on the tap, a clear spring spurted out at hot spring town, Pingyuanchi village, Chengbei streets, Rugao.

'Water comes out from the first spring. We will start to construct hot spring hotel before the end of the year, and work hard to make hot spring health project open next year.' Secretary of CPC Committee of Pingyuanchi village Liu Weijian said.

On 3 June, based on in depth research, Pingyuanchi village started hot spring investigation, exploration and drilling work. In only two months, the 1st hot spring in Rugao spurted out. Xue Weichong from Jiangsu non-ferrous metal east China geological exploration bureau told the reporter, 'after check, metasilicic acid per liter is 59 milligram. The concentration reached the standard to be called silicate hot well. Apart from that, the spring water contains trace elements which are good for health such as iodine and bromine. It is very suitable to develop hot spring health project.'
