Dinggujiao Walk of South Street presented a new look

By Yuan Xiaojie

On 26 September morning, after more than one year renovation, Dinggujiao walk- South Street presented a new look in the expectation of the public. Last year ‘round Hao River landscape upgrading project’ was started in Nantong. Chongchuan district invested 30 million Yuan to build Dinggujiao walk - South Street, and started nearby environment improvement project at the same time. After the opening ceremony,

intangible cultural heritage market, splendid street shows and famous must-visits are welcomed by the public. Opening ceremony is the start of magnificent transformation of Dinggujiao walk of South Street. The street will complement commercial complexes in south street district including Wenfeng world, Golden Eagle, Yaohan and Suning plaza in terms of operation, types of goods and targeting customers, satisfy diversified demands of customers in various aspects.

Civil Aviation Administration of China approved Tongzhou Erjia as recommended site of Nantong new airport

By Peng Junjun

On 30 September, as learnt from Nantong new airport (hub) construction headquarters, Civil Aviation Administration of China approved Tongzhou Erjia site as the recommended site of Nantong new airport. Since proposal of Nantong new airport, it has been a heated topic of the Yangtze River delta. The construction cooperative agreement signed by Jiangsu government and Shanghai government specified that Nantong new airport, together with Pudong airport and Hongqiao airport will form Shanghai multiple airport system main hub, and will be planned, built, operated and managed together with Pudong airport and Hongqiao airport.

Nantong merchants abroad invested more than 50 billion Yuan in hometown in the past three years

By Liu Lu

On 24 September, the association of Nantong merchants abroad held the 4th executive meeting of 1st council in Xi’an, and held project cooperation promotion conference successfully. The association of Nantong merchants abroad was founded in May 2017. It held millions of Nantong merchants in the state and overseas together. It is the chamber of commerce of largest coverage, most Nantong merchants, most integrity and maximum size in Nantong. Up to now Nantong has founded 21 Nantong chambers of commerce in other cities and 43 in foreign countries, 26 overseas work stations around the world. Using Nantong merchants’ data base as carrier, the association of Nantong merchants abroad contacts with Nantong merchants closely, held events such as domestic Nantong chambers of commerce cooperation and communication conferences successfully, attracted Nantong merchants to return to hometown and invest over one hundred projects in the past three years, the total investment is over 50 billion Yuan.

Nantong University received first batch of Hong Kong and Taiwan students

By Feng Qirong

20 to 21 September is when 2020 freshmen of Nantong University reported to the school. The school received the 1st batch of Hong Kong and Taiwan students also. They will start their university life in economics and management school, school of foreign studies, school of mechanical engineering, and medical school of Nantong University. Lu Yi from Taiwan is a freshman of oral medicine of medical school of Nantong University. She said, ‘I choose Nantong University not only because the campus view is beautiful, but also for the good education quality. I hope that in the future I can work hard and be admitted in graduate school, and find a suitable job in mainland.’ As a freshman of administration management of Economics and Management School of Nantong University, Lin Wenhao felt the care and love from teachers and seniors when he just arrived. Another freshman from Taiwan, Zhong Xinyi studies at translation course of school of foreign studies of Nantong University. She said, ‘Nantong University is what I like. I hope that in the future, I will love English like the very first day, work to achieve better, communicate with others and help other people in communication.’

A direct expressway from Rugao to downtown of Nantong Tonggao Avenue phase 1 main line open to traffic

By Yang Xinming

On 30 September, the transport project with the most investment in history in Rugao - Tonggao Avenue phase 1 project main line was open to traffic officially. Tonggao Avenue phase 1 project starts from Haiyang south road in Rugao urban area in the north, ends at Dingping line in the south. It is 22.3 km long. The main road is two way six lane city express. The design speed is 100

kilometers per hour. The line is closed and connected with main roads at intersections.

The opening of Tonggao Avenue provided solid foundation for Rugao expressway

network’s connection and transfer with Nantong expressway network and south Jiangsu expressway network. Tonggao Avenue phase 2 project will be started after Nantong railway west station flyover and G40 Nantong railway west station exit connection project was started. By then it will be connected with Nantong expressway network seamlessly. The time taken from Rugao to Nantong will be reduced from more than 60 minutes to more than 30 minutes.
