Qidong laver attracted orders from around the world

The fifth trade fair of this year held in Lvsi

By Huang Hai

On 12 April, 2021 Qidong the 5th laver trade fair was held at Lvsi laver market. Since 2005, Jiangsu laver association has held laver trade fairs, Qidong has become one of the largest Por-

phyra yezoensis cultivation, process and export bases in China.

According to general manager of Qidong east yellow sea laver farmer cooperative Wang Tiehua, as Qidong is located at where three water channels join, and the

downstream of the Yangtze River, there is ample nutrition in water, which is an excellent place for laver to grow, laver from here is black and shiny, of first grade quality. Purchasers from around the world such as Japan come to buy out of admiration.
