Involving several industries including shipbuilding and marine engineering, textile, photovoltaic and food industries

## 30 Nantong workshops shortlisted in Jiangsu intelligent manufacturing demonstration workshops

By Liu Lu

A few days ago, Jiangsu office of industry and information technology published 2021 provincial intelligent manufacturing demonstration workshop list, 332 workshops were recognized. 30 Nantong workshops such as Nantong Shennan Circuits Co., Ltd. high end printed circuit board intelligent manufacturing workshop, Nantong Tieren Sports Goods Co., Ltd. fitness equipment parts intelligent manufacturing workshop, Nantong Hengshang new material technology Co., Ltd. Intelligent knitting workshop are on the list, involving several industries including shipbuilding and marine engineering, textile, photovoltaic and food industries. Intelligent workshops shortlisted in the list have certain conditions in 10 aspects such as intelligent equipment and equipment internet connection, intelligent storage and precise

distribution, workshop real time work scheduling, product information tracking and tracing, energy consumption intelligent control, workshop environment intelligent control, safe production level improvement. The workshops implement advanced technology and intelligent equipment, have rational layout, have internet connection and data collection. The key important equipment can be controlled and operated remotely. Minimum stock and efficient distribution can be realized. Automatic monitoring of workshop production resources such as task order, material, products in process, equipment, and workers, and intelligent control of workshop hygiene, environment automatic monitoring, automatic check and automatic alarm can be realized. In the present there are in total 101 provincial intelligent manufacturing demonstration workshops in Nantong.

## More than 130 nucleic acid test convenience sampling points open

Reminder from Nantong health commission: people coming from other cities shall go to the nearest test point as soon as possible after arriving at Nantong

By Feng Qirong

Recently more than 130 Corona virus nucleic acid test convenience sampling points were set up in various counties and towns (streets) and industrial parks in Nantong. Nantong health commission reminded: people coming from other cities (non medium or high risk areas) shall go to the nearest convenience sampling point for nucleic acid test as soon as possible. In the present there are in total 16 nucleic acid test sampling points in Chongchuan district, including 6 streets and community health service center, 9 above grade two public hospital and 1 isolation hotel. At Nantong the third people's hospital, over 2000 citizens went for the test. For the situation, the third people's hospital organized more than 10 groups of medical workers to do 24 hour all day nucleic acid test. Nucleic acid test data is sent for check every two hours, and reports are available after about 4 to 6 hours. At fever clinic sampling point, report can be obtained within 2 hours at the soonest.
