## Nantong realized National Health City ‘five consecutive victories’

By Feng Qirong

A few days ago, National Health Commission website published *announcement about 2021 National Health City and Town review result from National Patriotic Health Association*. Nantong was reconfirmed as ‘National Health City’. Since national health city is awarded, it is reviewed every 3 years. In 2007,

Nantong became national health city, and passed the reviews in 2011, 2015, 2018, and 2021 successfully. Up to now, Nantong has realized National Health City ‘five consecutive victories’. In 2021, Qidong and Rugao were also reconfirmed as ‘National Health City (district)’; Nantong Erjia town was reconfirmed as ‘National Health Town (County)’.

## Innovative city innovation ability integrated ranking

## Nantong moved up to the 23rd in China

By Wang Weili

On 12 February, the reporter learnt from Nantong Science and Technology bureau that in *2021 national innovative city innovative ability evaluation report* published by Ministry of Science and Technology lately, Nantong’s innovative ability integrated ranking rose again, from 26th to 23rd; the ranking in Jiangsu moved one

place up, ranked the 5th in Jiangsu. Last year, there were 192 more high-tech enterprises in Nantong, the total number reached 2370. The total number of technological small and medium enterprises exceeded 3900; scientific innovative projects evaluation was carried out for the first time, and 246 scientific innovative projects were confirmed.

## January ‘Jiangsu good people list’ published

## 2 Nantong citizens on it

By Lu Zhaoxin

The reporter learnt from municipal civilization office published January ‘Jiangsu good people list’. Hundred-year-old Chinese medicine doctor Mei Jiuru who has more than 80 years of practice and the most beautiful sister in law Zhou Yunying who has cared disabled brother

in law for 68 years were elected successfully as ‘Jiangsu good people’. In 2021, Nantong elected and published ‘Nantong good people list’ and built online good people museum. There are 6 more China good people and 28 Jiangsu good people. The accumulated number is ranked the top in Jiangsu.

On 17 February, children of women’s football society of Chengnan experimental primary school, Hai’an were practicing football in after class service time. In the beginning of the new semester, ‘double reduction’ policy is implemented in our city and after class service work is promoted. Primary and secondary students use after class time to do sports, exercise, to improve volitional quality, and promote mental and physical health integrated development.

## Charging facilities have been optimized day by day, let more new energy automobile owners feel, know and reach

## ‘Wherever I am, it is very convenient to charge my car’

By Peng Junjun

At 8:50 am 13 February, new energy taxi driver Mr. Guo was busy at transportation industry investment group Teld charging station: while the car was being charged, he brought a bucket of water to wipe the car and wash the mat, did cleaning for inside and outside of the car... after 1 hour, the quantity of electricity of the car was recovered from previous 10% to 95%. Coming here to charge the car every day has become Guo’s first choice. The transportation industry investment group Teld charging station located near Shimao square in Nantong economic and technological development area, is

close to expressway and residential area, the location is very good. ‘Wherever I am, it is very convenient to charge the car.’ Guo opened ‘Teld’ charging pile App in his mobile phone and told the reporter that the App can locate all the charging stations within 5 km

precisely. During the ‘13th five year plan’ period, there are over 2300 more public charging facilities in Nantong. The average annual increase rate is about 34.9%. Last year, there were 53 new energy automobile public charging stations built in Nantong, and 468 public charging piles, all went into operation.

## Fishing industry proliferation and release activity held in Tongzhou

By Huang Yanming and Ren Yibin

On 17 February afternoon, Jiangsu fishing industry proliferation and release project Tongzhou district Yangtze River release event was held at water area near Shanghai-Suzhou-Nantong Yangtze River Bridge. Fish fries such as longsnout catfish, topmouth culter, and silver carp and first instar river juvenile crabs (Kou crab) were released to the Yangtze River. On the day more than 1 million fish fries and 7309 kg juvenile crabs were released, which were worth 900 thousand Yuan.

## The first China-Europe Railway Express (Hai’an – ASEAN) of the year of tiger set off

By Wu Xiaoyun

At 3:40 am 13 February, a China-Europe Railway Express fully loaded with export cargo set off from Nantong Hai’an railway logistics base slowly, heading off to Hanoi, Vietnam which is thousands of miles away. It is the first China-Europe Rail-

way Express in the year of the tiger setting off from the Yangtze River delta to ASEAN area. The train was loaded with in total 38 containers. The cargo included PVC resins, PVC processing aid, and carpets etc. The ratio of cargo produced by local companies is over 90%, which re-

flects the vigorous vitality of an export-oriented economy of our city. After China-Europe Railway Express (Hai’an – ASEAN) was included in railway train diagram officially, normal operation with fixed location, fixed line, fixed train service, fixed time and fixed price was realized. In the present, there is one train ev-

ery week. It is expected to reach Pingxiang border port in Guangxi in 72 hours, and reach Hanoi of Vietnam after about 5 to 7 days, which is close to half of the time less than shipping, which provides a more efficient and steadier logistics way for foreign trade companies in the Yangtze River delta and riverside and coastal areas.
