

Nantong report

Manufacture industry single champion enterprises communicated in Nantong

Up to now Nantong has had **20** national manufacture industry single champion enterprises (products). **61** enterprises won national professional, specialized, and new ‘small giant’ enterprises

By Zhu Wenjun, Zhu Beining and Liu Lu

On 13 August, manufacture industry single champion enterprises high quality development experience conference was held in Nantong. Manufacture industry single champion enterprises high quality development experience conference, is the most influential authoritative industrial conference in man-

ufacture industry over the state. The conference was guided by Ministry of Industry and Information Technology, held by China Federation of Industrial Economics and Nantong government together. Up to now Nantong has had 20 national manufacture industry single champion enterprises (products). The number is ranked the 3rd in Jiangsu. 61 enterprises won national professional, specialized, and new ‘small giant’ enterprises.

Received 800 people per day in average offline

Cross-border e-commerce selection exhibition closed

By Liu Lu

On 13 August, 2022 China-Nantong cross-border e-commerce selection exhibition was closed successfully. 256 supply chain enterprises from 12 characteristic industrial belts in Nantong and nearby provinces and cities, and 72 domestic and foreign cross border e-commerce leading platform enterprises and service organizations participated the expo. 800 people entered the offline expo per day in average. A lot of participating enterprises signed agreements with purchasers on the spot. As the first cross border e-commerce selection exhibition in Jiangsu, the expo applied ‘offline closed exhibition, online live broadcast exhibition synchronously’ innovative mode. The offline exhibition in-

cluded four major theme exhibition areas which are summit forum, industrial belt selection, cross border service provider and platform special session. There were more than 500 booths. Products of 12 characteristic industrial belts including home textile and furnishing, clothing and accessories, medical electronic equipment, electric tools, sports equipment, outdoor products, hardware accessories and personal protective equipment were exhibited. Online live broadcast exhibition applied ‘promotion in the studio + live broadcast team select products on the spot’ mode. There were in total 6 live broadcast sessions, helped 123 participating enterprises present products in live broadcast. The audience was close to 90 thousand people. The maximum online rate exceeded 16 thousand people.

3D wall painting

On 14 August, workers were doing 3D wall painting in Hongxing road, Chongchuan district. Up to now, beautiful streets including Hongqiao road, Wenfeng road, and Ping’an road have completed alteration. Photo by Xu Congjun

On 11 August, Qidong COSCO shipping and marine engineering technical staff were promoting N999 oil tanker multiple systems testing. N999 FPSO is the first floating production, storage and offloading ship built by Chinese shipbuilding enterprise for African project. It will go to Africa for operation, provide natural gas for countries including Mauritania and Senegal. Photo by Xu Congjun

Critically endangered species

Chinese crested tern appeared in Nantong again

By Peng Junjun

After a year, ‘bird of legend’ — Chinese crested tern arrived at Nantong as usual. On 10 August, in Donglingguan wetland in Rudong, ‘spoon-billed sandpiper in China’ observer saw 2 Chinese crested terns. It was the first record this year in Jiangsu. In the following few day, its friends arrived at Nantong one after another. Up to 17 August, there had been 4 to 6 Chinese crested terns near Dongling, Rudong. Among them, ring label ‘ZAI’ was reported for return for the first time in the world. Chinese crested tern has slender body, white feathers, forked tail, black crest, yellow beak with black color at the end, very recognizable

among birds. As it is very rare and its mysterious track, Chinese crested tern is called ‘bird of legend’. In a long time, their number is

evaluated as smaller than 50. It is listed in critically endangered species by International Union for Conservation of Nature.

Nantong People’s Political Consultative Conference held event

To standardize foreign language translation

By Guo Liang

On 18 August, Nantong People’s Political Consultative Conference held event, members of Nantong People’s Political Consultative Conference, local universities, foreigner representa-

tives in Nantong focused on ‘standardization of foreign language translation in Nantong public service’, conducted consultation and discussion. In the past few years, the international level of Nantong has been increased gradually, but problems still exist which are incorrect, not standard and improper foreign language translation and writing in public service fields including transport, culture and tourism, education, medicine, catering and accommodation.

Participating parties reached agreement, suggested to establish work system, combine local practical conditions, and create foreign language usage standard for Nantong public service field as soon as possible; increase supervision and guidance, establish language and writing supervising group, and carry out routine supervision and guidance work; build talent team, improve translator and proofreader pre-employment training, promote practitioners’ understanding of English translation standard.
