‘Credit Nantong’ achieved a historical breakthrough

Nantong urban credit ranked the 1st among prefecture-level cities in China

By Yan Chunhua

The reporter learnt from Municipal Development and Reform Commission that urban credit condition monitoring and ranking report of March 2023 published by National Center for Public Credit Information showed that comprehensive credit index of Nantong was 89.69, ranked the 1st in 261 prefecture-level cities in China. ‘Credit Nantong’ achieved a historical breakthrough. The city’s influence over the state was improved further.

Urban credit monitoring is a dynamic monitoring analysis carried out on credit conditions of 261 prefecture-level cities and 383 county-level cities over the state by National Center for Public Credit Information using big data monitoring technology and national credit information sharing platform. Its aim is to help municipal governments and relevant departments know the credit conditions of cities over the state, to better promote urban credit building, improve urban credit level and optimize business environment.

Nantong shipbuilding supporting enterprises participated in Sea Asia 2023 in Singapore

By Liu Lu

From 25 to 27 April, the 9th Sea Asia was held at Marina Bay Sands in Singapore. 7 shipbuilding supporting enterprises and marine service enterprises of Nantong including Zhongtian Technology went to Singapore and participated. As the second largest shipbuilding and marine engineering base in China, Nantong has complete marine engineering shipbuilding industry system and rich supporting resources. There are more than 300 shipbuilding, marine engineering and supporting enterprises. In 2022, three major shipbuilding indices of Nantong were increased.

The completed shipbuilding amount was 2.86 million DWT. The amount of new orders was 5.86 million DWT. At the end of the period, there were 125 transport ships of various types, in total 9.91 million DWT. There were increases of about 4.4%, 31.7%, and 33.6% respectively. The export of shipbuilding industry reached 8.456 billion yuan, there was an increase of 3.4%. Since the start of this year, as overseas offline exhibitions have been recovering gradually, Nantong organized 2023 ‘Nantong Export Brand’ series of fairs, provided characteristic services for participating enterprises, helped enterprises grab orders and stabilize the market.

Accumulated power generation of Nantong offshore wind farm Exceeded 50 billion kilowatt-hours

By Wu Xiaoyun

The reporter learnt from Nantong Maritime Safety Administration that since the completion of Nantong offshore wind farm, the accumulated power generation has reached 50.971 billion kilowatt-hours, exceeded 50 billion.

Among them, power generation of the offshore wind farm in the first 4 months of the year is 6.481 billion kilowatt-hours, there is an increase of 16.25%. Up to now, 23 offshore wind farms and 1573 wind turbines have been built in Nantong. The total installed capacity is 6.688 million kilowatts.

According to calculation of experts, 50.971 billion kilowatt-hours of clean electric power can satisfy the needs of 22.3 million ordinary families in one year. Compared with traditional coal-fired thermal power, it can reduce 58.89 million tons of carbon dioxide emission and 1.77 million tons of sulfur dioxide emission.

Focus on major industrial chain, attract investment precisely

Tongzhou Bay Demonstration Zone went to Hong Kong and Singapore for cooperation and exchange

By Wu Xiaoyun

A few days ago, Tongzhou Bay Demonstration Zone formed a team and went to Hong Kong and Singapore, carried out a series of cooperation and communication activities, started a new round of precise investment promotion trip. According to the actual needs of Tongzhou Bay industrial development, focusing on major industrial chain and precise investment promotion, is a major feature of the trip. In the present, characteristic industrial clusters of Tongzhou bay including port facilities, shipbuilding and marine engineering, and high and new tech electronics are accelerating the pace of expansion. While in Singapore, the delegation visited enterprises and organizations including Giti Tire, Royal

Golden Eagle group, Sembcorp Marine, ST Marine, and Singapore Manufacturers’ Federation. While in Hong Kong, the delegation visited enterprises and organizations such as Hutchison Port Holdings, China LNG group, PCCS, Hanbang International (Hong Kong) Limited, and Hong Kong Logistics Association. Some enterprises expressed their intentions of coming to Tongzhou Bay for on site research.
