## 3 new National Postdoctoral Research Workstations in Nantong

“The enterprises’ postdoctoral research workstations are effective carriers of production, learning and research integration, and improvement of the enterprises’ independent innovative abilities.

By Huang Hai

A few days ago, the 2nd batch of 2022 ‘National Postdoctoral Research Workstation’ list was published. 3 enterprises which are Nantong Taisheng Blue Island Offshore Co., Ltd., Jiangsu Hai’an High Tech industrial Development Zone, and Alpha ESS Co., Ltd. were approved successfully. Taisheng Blue Island Offshore has established master, doctor and post doctor progressive, full chain and high quality talent cultivation system. Up to now, Taisheng Blue Island Offshore Technology and Innovation Center has 1 postdoc employee in station, jointly cultivated 2 doctors and 4 masters. Hai’an High Tech Industrial Development Zone was approved as National Postdoctoral Research Workstation Master Station in the form of ‘mas-

ter station + substations’, the 7 short-listed substations are involved in fields including new materials, and intelligent equipment manufacturing. Alpha ESS has established global talent strategy. Its core team consists of integrated technological talents in fields including electric technology research and development, energy storage equipment manufacture, IT data service and new energy project development. The business of the enterprise has been expanded to more than 60 countries and areas in the world. The enterprises’ postdoctoral research workstations are effective carriers of production, learning and research integration, and improvement of the enterprises’ independent innovative abilities. It has great significance for attracting postdoctoral talents, improving technological innovation abilities and promotion of achievement transformation.

## China Magic Innovation and Development Seminar held in Rudong

By Yang Xinming

On 29 May, China Magic Innovation and Development Seminar was held in Rudong. Domestic and overseas magicians gathered, and provided suggestions and comments about building Chinese magic brand. Rudong acrobatics is a cultural name card famous in China and in the world. In the past few years, dozens of programs such as Moon rises on the sea, the Starfish flower, and Three Stanzas of Plum-blossoms created by Rudong youth acrobatics group (Nantong youth acrobatics group), have been performed in more than 40 countries and areas including Japan, France, Germany, Russia, Nepal, and Singapore, won 26 national and international awards.

On the night, ‘acrobatics and magic boutique exhibition of six provinces and city’ was started at Rudong Sports Hall. Acrobatics and magic masters from Shanghai, Hebei, Zhejiang, Shandong, Anhui and Jiangsu presented a top level acrobatics and magic performance.
