‘Belt and Road’ CEO Conference held in Beijing Projects of two Nantong enterprises participated the signing ceremony

By Wu Xiaoyun

On 17th October, ‘Belt and Road’ CEO Conference was held in Beijing. At the conference, joint construction of the ‘Belt and Road’ project signing ceremony was held on the conference site. The projects covered 68 countries and areas, including fields such as infrastructure, clean energy, artificial intelligence and biomedicine. Among them, the projects of two private enterprises in Nantong participated the signing ceremony, which are Jiangsu Shemar Power Co., Ltd. and Wison (Nantong) Heavy Industry Co., Ltd.

The project signed by Shemar Power is the original equipment manufacturer of Shemar in Pakistan. After it

is completed, the annual output of various types of line insulators will be about 90000. When reaching full production capacity, Shemar is expected to obtain 6 million U.S. dollars/year. The main contractor framework agreement of floating liquefied natural gas facility (FLNG) which can produce 1.2 million tons of liquid natural gas per year signed between Wison Heavy Industry and PT Nusantara Regas this time has a contract value of close to 1 billion U. S. dollars.

It is the 10th anniversary of the proposition of the ‘Belt and Road’ Initiative this year. In the past 10 years, 84 Nantong enterprises have invested 88 projects along the ‘Belt and Road’, and the number is leading in Jiangsu province.

At the 134th China Import and Export Fair Nantong enterprises got a lot of orders

By Liu Lu

On 16th October, the reporter learnt from Nantong Bureau of Commerce that at the 134th China Import and Export Fair, many Nantong enterprises got ‘a good start’.

On the opening day, Jiangsu Zhima tools Co., Ltd. met an Iranian client ELMAK. ELMAK talked with the staff for close to an hour. He liked the tool products exhibited at the booth,

and he placed a cargo order of 200 thousand U.S. dollars, and an annual intention order of 800 thousand U.S. dollars immediately. After that, the enterprise renewed friendship with their old Mexican client, and confirmed an order of 3 million U.S. dollars for the next year on the spot.

The participating Nantong enterprises were mainly from fields including sports and leisure, hardware tools, safety and labour protection, textile and clothing.

Promote the development of new energy and new materials industries

Domestic and foreign experts and professors discussed in Nantong

By Wang Weili

On 14th October, ‘the 7th (International) Symposium on New Energy, New Materials, and Advanced Manufacturing Technology’ was held in Nantong. Many domestic and foreign well-known experts and scholars shared the research achievements online and offline.

On the conference, experts and scholars from famous domestic and foreign universities delivered reports on themes including *collaboration between natural humans, robots and digital humans and 3D technology printing of heavy rail train track surface*. Ren Fuji, an academican of The Engineering Academy of Japan and professor of Tokushima University said, ‘Nantong is developing fast. It has obvious location advantages and clear industrial planning. Nantong manufactur-

ing industry can play a better role in the new wave of artificial intelligence.’ Ren Jifu suggested Nantong to attract more excellent talents to participate in the revolution driven by AI.

The symposium attracted many enterprises and universities in Nantong and nearby cities to apply. ‘Our company is an advanced manufacturing company which works on research, development, manufacture, and sales of full fresh air product series. We have a certain demand on usage of new materials.’ Ge Meicai, Vice General Manager of Nantong ENHRON Central Air-conditioning Co., Ltd., said that the company was carrying out industry, learning and research cooperation with some professors of a Japanese university, to do research and development on application of energy saving system of fresh air system, focusing on new materials field in the future.

The 22nd Rudong Kite Festival opened

By Yang Xinming

On 14th October, the 2023 China Kite Invitational Tournament of the 22nd Rudong Kite Festival opened at the national kite flying site in Xiaoyangkou, Rudong County.

Kite is one of the first batch of national intangible cultural heritages in China. Rudong is the ‘hometown of kites in China’. The unique Shaokou Banyao kite, is one of the four major kite types in China. It has an honored name as ‘symphony in the air’.

Free shuttle bus at the underground railway station of Nantong First People’s Hospital

By Feng Qirong and Jiang Jiajiao

Recently, free shuttle bus special line going directly to level B1 of the Outpatient of Nantong First People’s Hospital was in trial operation at Chongzhou Avenue station of the underground railway line No.1, which realized ‘getting on a bus once get-

ting off the train, and seeing a doctor once getting off the bus’.

Two shuttle buses were arranged by Nantong First People’s Hospital. Apart from the driver, there are 6 seats in each bus. The ‘route’ of the free shuttle bus is ‘hall of Chongzhou Avenue station of the underground railway — level B1 of the Outpatient of Nantong First People’s

Hospital’. There are two pick-up points which are the underground railway station and Nantong First People’s Hospital. The operation time is 7:00 to 18:00 every day, with a bus scheduled every 7 to 10 minutes. The shuttle bus takes senior, weak, ill, disabled, pregnant people and those who are not convenient to walk at a priority.
